PRESENTATION

With a solid 15-year track record in managing technical teams, I have the ability to provide 100% commitment focused on business objectives. My focus is on thoroughly understanding business needs and leading technical teams to design solutions that fully meet time and cost objectives while minimizing risks.

EXPERIENCE

💼 **DIGITAL PROJECT MANAGER**
ACCIONA 2022 - CURRENT

Management of DevOps, Infrastructure, Architecture and Development teams for the comprehensive execution of digital projects.
Development and implementation of innovative solutions in various business areas, including Artificial Intelligence, Security and Smart Electric Recharging, recognition of EPIS in access to parks, CRM (Salesforce) integrations for sales force in Acciona (BI, Billing...)
Management of request for proposals (RFP) and requests for quote (RFQ) processes.
Evaluation and review of technical proposals to guarantee the quality and viability of the projects.
Comprehensive management of financial resources, risks, development teams, project plan and business roadmap.
Cloud platforms and services, including Azure and AWS, as well as expertise in architecture and integration with production solutions

💼 **FREELANCE CONSULTANT**
REPSOL, 2023 - CURRENT

- Freelance collaboration according to company needs in SalesForce Marketing Cloud team
- RFI, RFQ, RFP
- Gathering of requirements
- Review and approval of technical solutions
